## FORWARD

This guide is published for the use of the customers of Fox Army Health Center. It is intended as an aid to understanding the services available at Fox Army Health Center's Pharmacy and is not an official publication of this organization of the Department of the Army. While we have attempted to provide information representative of the questions most often asked by our customers, this guide does not pretend to be all inclusive or exclusive to services offered. Specific questions should be directed to the pharmacy staff.

### GENERAL INFORMATION

\*\*\*\*\* AR 40-3 requires that medical care and services be provided only to eligible beneficiaries. The military I.D. card is a tool that helps us meet this requirement. Medication will not be issued for a patient who is over the age of 10 years unless a valid military I.D. card for that patient is presented to pharmacy services. \*\*\*\*\*

#### *DAYS and HOURS OF OPERATION:*

0800-1700 hours daily on Monday thru Friday. Look for announced training holidays, usually falling around a federal holiday.

#### *TELEPHONE NUMBERS:*

Outpatient pharmacy: (256) 876-5773  
Automated phone-in refill system: (256) 842-7337 or 1-800-223-9531

### DISPENSING POLICIES

**Maintenance medications:** A 90 day supply may be dispensed at one time. The prescription with refills can be filled up to a 12 month period for non-controlled drugs. For Narcotics and Scheduled III-V Controlled Substances, a maximum of a 30 day supply may be prescribed with 2 refills. Scheduled II drugs are not refillable by Federal Law.

**Exception:** Ritalin may be given up to a 60-day supply for Attention Deficit Disorder. Federal Law prohibits refills on Schedule II substances.

**Exception:** Klonopin, Phenobarbital, and Tranxene when prescribed for seizures and annotated and the Rx, may be prescribed for a 60 day supply with 2 refills  
Tussionex is limited to 2 ounces.

Requests for exceptions to this policy may be brought to the attention of the Chief, Pharmacy Services.

**Prescriptions expire after 1 year from the original date of dispensing for most medications; controlled substances expire six months from the original date.**

The original number of refills will be annotated on the RX label. For example, 0 of 5 refills means there are zero refills out of the original 5 refills prescribed.
